Worksheet 1 | Show your working using branching, model drawing, or fractions

continued

3. Mina had some money. She spent $\frac{3}{8}$ of her money on a school bag and $\frac{2}{5}$ of the remainder on a pair of shoes. She had \$72 left. How much money did Mina have at first?

Working / model drawing space

4. Ryan baked some muffins. He sold $\frac{1}{4}$ of them to his neighbours and packed $\frac{2}{3}$ of the remainder into boxes. What fraction of the muffins did he pack into boxes?

Working / model drawing space

Primary 5 Mathematics - Remainder Concept

Worksheet 2 | Show your working using branching, model drawing, or fractions

Name: _____

Class: _____

Date: _____

1. Clara read $\frac{2}{5}$ of a storybook on Saturday. She then read $\frac{1}{3}$ of the remainder on Sunday. She had 72 pages left to read. How many pages were there in the storybook at first?

Working / model drawing space

2. A container had 160 litres of water. $\frac{1}{6}$ of the water was used in the morning and $\frac{1}{3}$ of the water was used in the afternoon. Later, $\frac{1}{4}$ of the remaining water was used in the evening. How much water was left in the container?

Working / model drawing space

Primary 5 Mathematics - Remainder Concept

Worksheet 2 | Show your working using branching, model drawing, or fractions

continued

3. Mrs Lim baked some pineapple tarts. She gave $\frac{3}{10}$ of them to her family and sold $\frac{4}{7}$ of the remainder. She had 42 tarts left. How many pineapple tarts did Mrs Lim bake at first?

Working / model drawing space

4. Tom had some savings. He spent $\frac{1}{2}$ of his savings on a bicycle and $\frac{1}{4}$ of the remainder on a helmet. What fraction of his savings did he spend on the helmet?

Working / model drawing space

Primary 5 Mathematics - Remainder Concept

Worksheet 3 | Show your working using branching, model drawing, or fractions

Name: _____

Class: _____

Date: _____

1. Devi had some marbles. She lost $\frac{1}{6}$ of them during a game. She then gave $\frac{3}{5}$ of the remainder to her brother. She had 32 marbles left. How many marbles did Devi have at first?

Working / model drawing space

2. A jar had 96 cookies. $\frac{1}{4}$ of the cookies were eaten in the morning and $\frac{1}{3}$ of the cookies were eaten in the afternoon. Later, $\frac{1}{2}$ of the remaining cookies were packed into boxes. How many cookies were left in the jar?

Working / model drawing space

Primary 5 Mathematics - Remainder Concept

Worksheet 3 | Show your working using branching, model drawing, or fractions

continued

3. Hasan had some money. He spent $\frac{2}{9}$ of his money on a toy and $\frac{3}{7}$ of the remainder on a board game. He saved the remaining \$96. How much money did Hasan have at first?

Working / model drawing space

4. Siti had some ribbon. She used $\frac{3}{8}$ of it for greeting cards and $\frac{2}{5}$ of the remainder for wrapping a gift. What fraction of the ribbon did she use for wrapping the gift?

Working / model drawing space

Primary 5 Mathematics - Remainder Concept

Worksheet 4 | Show your working using branching, model drawing, or fractions

Name: _____

Class: _____

Date: _____

1. A factory packed some bottles of juice. It sent $\frac{4}{9}$ of the bottles to Shop A and $\frac{3}{5}$ of the remainder to Shop B. There were 80 bottles left. How many bottles were packed at first?

Working / model drawing space

2. A tank had 240 litres of water. $\frac{1}{5}$ of the water was used in the morning and $\frac{1}{4}$ of the water was used in the afternoon. Later, $\frac{1}{3}$ of the remaining water was used in the evening. How much water was left in the tank?

Working / model drawing space

Primary 5 Mathematics - Remainder Concept

Worksheet 4 | Show your working using branching, model drawing, or fractions

continued

3. Zoe had some money. She spent $\frac{5}{12}$ of her money on an art set and $\frac{2}{7}$ of the remainder on books. She had \$70 left. How much money did Zoe have at first?

Working / model drawing space

4. A class collected some cans. They recycled $\frac{2}{3}$ of the cans first and donated $\frac{1}{4}$ of the remainder to another class. What fraction of the cans did they donate?

Working / model drawing space

Primary 5 Mathematics - Remainder Concept

Worksheet 5 | Show your working using branching, model drawing, or fractions

Name: _____

Class: _____

Date: _____

1. Daniel had some money. He spent $\frac{3}{8}$ of his money on a pair of shoes and $\frac{1}{5}$ of the remainder on a school bag. He had \$200 left. How much money did Daniel have at first?

Working / model drawing space

2. A tank had 144 litres of water. $\frac{1}{4}$ of the water was used in the morning and $\frac{1}{3}$ of the water was used in the afternoon. Later, $\frac{1}{2}$ of the remaining water was used in the evening. How much water was left in the tank?

Working / model drawing space

Primary 5 Mathematics - Remainder Concept

Worksheet 5 | Show your working using branching, model drawing, or fractions

continued

3. Mrs Kumar baked some cupcakes. She sold $\frac{2}{7}$ of them to customers and gave $\frac{1}{3}$ of the remainder to charity. She had 60 cupcakes left. How many cupcakes did Mrs Kumar bake at first?

Working / model drawing space

4. Afiq had some money. He spent $\frac{3}{10}$ of his money on a shirt and $\frac{2}{7}$ of the remainder on a cap. What fraction of his money did he spend on the cap?

Working / model drawing space
